Please note that if the loan you are placing with **Amtrust** is one that cannot be placed anywhere else, it needs to be table funded rather than warehoused on our line. In today's challenging marketplace, Overland does not want to place loans on our line when there is only one source to sell the loan. This means that you will have to disclose the GFE properly as a brokered loan and you will have to order the appraisal through THEIR appraisal vendor. If you order an appraisal through one of our vendors, **Amtrust** will not accept the appraisal.
